

Last	First	Classification	Major	Research Interest	Previous Research	Research
Evans	Catelyn	Freshmen	Physics/Dual Degree		Classroom experience no real lab experience outside of a classroom environment.	
Fearce	Chelesa	Freshmen	Biochemistry		Classroom experience no real lab experience outside of a classroom environment.	LaDer
Jackson	Kayla	Freshmen	Math	Cardiovascular	Currently researching with Gale Newman, PhD. @ MSM	Gale N
Kirkland	Maya	Freshmen	Math/Dual Degree		This past summer I participated in the WIE-STEM summer program where we had the experience to go to Georgia Tech and tour their biomedical research program.	
Sawyer	Simone	Freshmen	Psychology		I was accepted to the National Student Leadership Conference for Medicine and Healthcare that I attended two summers ago. I, along with a group of 5 other students, did research on the topic of public health. We had to identify a major issue, research the problem, find out how it applied in our communities and then come up with a solution.	Erin Br Tina D
Wright	Lena	Pre-Freshmen	Chemistry		During the summer between my eleventh and twelfth grade year I participated in the METAPrem Summer Research Program. METAPrem is a National Science Foundation grant dedicated to research on controlling and utilizing complex physical properties of active and hyperbolic metamaterials. I worked in conjunction with a grad student from Norfolk State University and an undergrad student from Cornell on research for four weeks, this experience gave me a deeper understanding of research and ignited my desire to one day conduct my own project.	LaDen
Collins	Amanda	Pre-Freshmen	Physics/Dual Degree	Biomedical Eng.	Last summer, I participated in REHAMS (Recruitment into Engineering High Ability Minority Students) a summer engineering program at Louisiana State University where I was able to learn about the different fields of engineering. During the program, we conducted a research project producing a Rube Goldberg's machine and based on his methods constructed a car that used the reaction between Mentos and Diet Coke as
